THE PARACHUTE MAN.

His Fall was no Secret
and Filled 40 Years.

"Come out, the band all ready!"
I was not with a roar of applause as
I ran down the hotel steps. The band
bowed in salute and the crowd opened
up for me as I hastened. The para-
chute was attached out from the
straining balcony. As the man with
me came down the rope hung and
swayed. He was excited one. I was
in a scullery. A bitter indifference
showed me as I looked at the very av-
ing monster which was to bear me to
safety or death.

"Let her go!"
With a clattering of the air and a rush
of sound like the coming of a cyclone
the balloon shot upward. I was for the
bar, grasped it and soared.
I tried to swing up on my arm, but
the rope of the secret straightened me
like an iron rod. I thought my arm would
be pulled out. A sudden crash over-
me. Compared to the effect of the
start made by a high speed elevator,
then the motion became more
easy and I swung up on the bar. I
was accustomed to going down from
heights and I felt no fear as I stared
at the falling crowd. I could see them
swaying hats and heads; could hear the
band playing; and was conscious of a
pleasant dreamy sensation and of a
steady, easy falling from the ground.
I ventured to make a "crash" and make
a few "safe drops." It was as easy
as when I was only a few feet from
the ground. I glanced down again.
The crowd appeared smaller and seemed
to be walking away from me. I had
commenced to drift. Now was the
time to cut loose. I wished that I
might, any where I was—taking
chance with that limp bag of a para-
chute did not look safe. But it had to
be done.

I caught hold of the rope, braced my
self on the bar and gave a short, hard
pull.
"My breath left me! For the first
time four—colorful fear—colored
at my last hour. A jerk that nearly un-
settled me, and I was again sailing pleas-
antly through the air."

I ventured to essay a few additional
tricks, as the ground seemed more
close; I approached me, and then I com-
menced to calculate as to the manner
in which to strike the ground. Like
many other problems, it settled itself.
I struck it feet first in a crouched, was
dragged along and scratched up blood
and to consciousness in the arms of
my new manager, who was alternately
singing me for getting killed and doing
it for having saved his skin and the
\$400.—Owing.

CIRCUS DAY IS NEAR

STUPENDOUS SPECTACLE INVOL-
VING 1200 CHARACTERS ADDED
TO RINGLING BROTHERS'
WILDLY ORIENTAL SHOW.

Ringling Brothers' may always be
depended upon for some towering
and astounding novelty, and this year
it offers a new, original and dra-
matic spectacle, involving a greater
outlay of money than ever before
envisioned in a circus attraction. It
is named Jerusalem, and the Cru-
ade, and, incidentally depicts the
classic story of early Christian
tragedy. There are 1200 charac-
ters in the cast, a salute of 300 and
a military column of 250. The in-
dustrial music is supplied by the lar-
gest portable grand organ ever
owned, and a band of fifty instru-
mental, 2500 costumes of ancient
patterns and radiant splendor, gilt-
leaving implements of a barbaric
age, decorative scenery of massive
portals and entrancing features in
the magnificent spectacle. This illumi-
nated story of the Crusades is the
most gigantic conception of circus
enterprise in the history of the
world. The pick and power of rid-
ing, acrobatic, artistic, equilibris-
tic, juggling, gymnastic and athletic
tricks, made of distinction in Europe
and America, and many never
seen in this country, will be in the
ring program. Oppl. Webb's
performing acts, five groups ad-
ding on two stages at the same
time, are a novelty. Last night
seemingly accomplished and never
before seen in the morning
of snow day in the year of ac-
complishing splendor, variety of feature
and length, and that making a
prominence of what looks like the
possible, for the Ringling Brothers
always excel in the matter of
spectacular, and last season's
show was a first-class
show. Making the parade of all other
shows look like a child and breath-
less effort. Numbered reserved
seats may be secured on the date
of exhibition and without extra
charge at "Rings" music store.

Reading His Own Works.
I only once heard Thackeray allude
to his work in a serious
spirit, which amused both him
and us. "I was travelling on this
thing," he said in company no doubt
with "the Kitchener's," and enter-
ing one of the hotels on the hill, ex-
hausted and weary, I went into the
saloon and threw myself on a sofa.
There was a book on a little table close
by, and I opened it to find it was
"Vanity Fair." I had not seen it since
I corrected the proofs. "I read
chapter. Do you know it second to me
very amusing?"—Dean Hole's
Memories.

Recently.
"You've cut down my allowance,"
she said.
"I've been admitted. I've been spend-
ing most of my time at the club re-
cently, and I can't pay board in two
places."
"Then you'd better stay home," she
said, and bid. But presently there
was the old complaint.
"I've cut down my allowance
again," she said.
"I've been admitted. I'm spending
my time at home now, and my com-
plaint is not for anything."
Then she didn't know whether to ad-
vise him to go back to the club or not.

Time and Money.
Whistler, on the witness stand one
day, was asked the price he had ob-
tained for a certain picture.
"One thousand guineas," said he.
"How long did it take you to paint
it?"
"About a day and a half!"
"And do you mean to tell the court,
Mr. Whistler, that you have the au-
thority to charge 1000 guineas for the
work of a day and a half?"
"No, sir; I ask it for the knowledge
of a lifetime."

It Didn't Work.
"I think he good for a hundred any-
how," said young Joe the Wild One
to his pal. "Every young fellow needs
a stick when he is of age, so I'll send
this telegram collect to the old man."
"Then I suppose—I am tremendous to-
day and broke?"
"I don't think the fond father wired
collect."
"So was I when I was twenty-one."
His Senseless Anecdote.
Durant's year new play was per-
formed last night. Was there a call
for the author? "Fitter—There was no
general demand for his appearance, but
I heard one or two men say they'd like
to see the man who wrote it. I didn't
like the way they said it and got out
of the house as soon as I could."

Woman's Priceless Pearl
The greatest menace to hap-
piness is her health. The
greatest menace to her
health is Kidney Disease.
Mrs. Young says South
American Kidney Cure is a
priceless pearl. So it is.
Mrs. A. E. Young, Durham, Ore., says: "It
is seven months since I took my last dose of
South American Kidney Cure and I feel now
as if I had never known any other
pill doers a small female without any per-
sonal trouble. This trial is to be
sold for women suffering as I did."
It is sold by D. M. Waters and J. B. Mc-
Ewen.

BATTLE AT SAMATSI LOW

RELIEVED TO HAVE TAKEN PLACE.

Kuropatkin May Have Been Hit Though No Confirmation

Recent Council of War Decided That He Should Risk An Engagement In An Endeavor to Snatch Victory to Retrieve Russia's Waning Military Reputation—Anarchy Followed the Evacuation of Dalny—Port Arthur Attacked.

London, June 2.—No confirmation has been received of the reported heavy fighting near Port Arthur, with Kuropatkin's army, although the latter is not regarded as improbable. Russian papers that court influence is being exerted to induce Kuropatkin to assume the offensive as an endeavor by a victory to retrieve the Russian military reputation.

The Daily Telegraph's St. Petersburg correspondent says: "A recent council of war decided that Kuropatkin should risk an engagement. The Emperor ratified this judgment, even going so far as to authorize the dispatch of troops from the German frontier to the Far East, on the ground that as Germany was benevolent, she might be treated safely. All hopes are centred now on Kuropatkin, who will make desperate efforts to save Port Arthur."

Against these statements must be placed the official contradiction communicated to the Associated Press, and already called that General Kuropatkin would make no attempt to take Samatshi Low.

The Times correspondent at St. Petersburg writes: "The situation there is not a serious one. As early as Dalny, the Japanese have been driven back. The Japanese have been driven back from Dalny and the Russian navy has joined in the movement. The Japanese have been driven back from Dalny and the Russian navy has joined in the movement."

It is to be feared that the result will be about 200,000 dead on the Russian side. "Some time will be required to get the Japanese out of Dalny and Tallinn is being exerted to induce Kuropatkin to assume the offensive as an endeavor by a victory to retrieve the Russian military reputation. The Japanese have much railway material on the way."

No Mistrust. Rumors of influence in the Japanese war caused a rise of half per cent. in consols and a general upward tendency on the London market yesterday afternoon, but the rumors have found no continuation in domestic circles.

Port Arthur Attacked. Indianapolis, Ind., June 2.—A special cable from St. Petersburg to the Indianapolis News at the London dated June 1, says: "The Japanese land attack at Port Arthur was begun yesterday morning. Russian forces that were driven southwest from Dalny and Kuropatkin at Port Arthur, and the Russian navy has joined in the movement. The Japanese have been driven back from Dalny and the Russian navy has joined in the movement."

It is to be feared that the result will be about 200,000 dead on the Russian side. "Some time will be required to get the Japanese out of Dalny and Tallinn is being exerted to induce Kuropatkin to assume the offensive as an endeavor by a victory to retrieve the Russian military reputation. Sir Michael Foster in a lecture on "Health and Ill Health" to the members of the Workingmen's club said that health, like happiness, did not exist. Chase away that weary frown.
The great big Circus is in town
Hurry! Hurrah! So quick and easy,
With so many sights to see.

Did you see the elephants? Well, rather!

This would have been the day to see the elephants, and the parade looked, about 11 o'clock this morning, as though much of the people were in a hurry to get to the show. So had some to see the circus. The streets were packed in the same old way, and the country around the city was full of people. The parade was the best seen in this city in many long years.

There are different grades of horse parks, and the parade was the best seen in this city in many long years.

It was handsome.

Early this morning the first train of the big circus arrived over the Chicago & North Western.

Indianapolis, June 9.—A special cable received by The News from the staff of war correspondent says:

"Chiao, June 8.—The Japs continued their attack on the night of June 7, but they did not succeed in capturing the city."

"The Russian forces around the beleaguered city were informed by the troops which had gained the attack. The fighting still goes on."

"The Russian vessels in the harbor, with their great guns, added the land forces in repelling the attack. The fighting still goes on."

St. Petersburg, June 9.—Gen. Kuropatkin telegraphed to the emperor, under date of June 8:

"A Japanese brigade attacked a Russian detachment, occupying Saimaan on June 7. The Russians repelled it, inflicting heavy casualties on the enemy."

"Our losses were two officers wounded and five hundred soldiers killed or wounded."

St. Petersburg, June 9.—All Japanese movements are caused by anxiety to hammer as much as possible whatever remains of Gen. Kuropatkin's army. The Japanese do not only have the Japanese bombard the west coast of Saimaan Peninsula, where the railway runs close to the coast, but they also bombard the city of Saimaan, which is situated on the coast.

R. & I. STEAMER CANADA WAS SUNK YESTERDAY MORNING. Run Down by the Coaler Cape Breton in the St. Lawrence.

Five Persons Drowned—Sixty Passengers Thrown Into Forty Feet of Water, Clung to the Deck of Wrecked Boat, But Host of Them Were Saved—Value of Canada Stated to be \$300,000.

Montreal, June 13.—The steamer Cape Breton, a coaler, anchored in the port of St. Lawrence, started about 5:30 yesterday morning for Quebec, making a long route and then entered the St. Lawrence River to follow the channel. Ten minutes later she ran into the R. & I. Co. steamer Canada, three miles below St. Lawrence, her bow striking the stern of the Canada in half, almost cutting the Canada in two. The Canada sank in less than five minutes.

The pressure of the water lifted the upper deck, giving a chance to all the passengers to climb up the deck of the wrecked boat and transfer on board the steamer Cape Breton. Some of the fifty passengers threw themselves with ill-provisioned into the river, where later on they were picked up by small boats. No far as known five persons were drowned as follows:

M. Thibault, assistant agent R. & I. Co., St. Lawrence, and his two sons, Purser Bonnetier and Brunette, employed by the Government at St. Lawrence.

All the passengers were brought to shore by the steamer Prevalent, which was on her way from Quebec and were taken care of by the Mayor, C. O. Paradis, one of the officers of the R. & I. Co. About sixty passengers were lost at their deaths, and were supplied by Mr. Paradis. The body of Mr. Thibault was found a couple of hours after the collision. An inquest was held last night at 10 o'clock.

Thousands of people from St. Lawrence.

and other places came here by excursion train and went out on Cape Breton yachts to the wreck. The value of the Canada is over three hundred thousand dollars. She is a total loss.

Quebec, June 13.—The steamer Cape Breton, which sailed at 5:30 a.m. morning on the R. & I. Co. Navigation Co., arrived in port at 1:30 p.m. yesterday afternoon. Sergeant McCarthy, chief of the Provincial Police, and Constable Thibault went on board immediately, according to orders from the authorities to make arrests. Because members of the crew were accused of having committed suicide at the scene of the wreck. They found nothing else than a few life preservers belonging to the Canada and the Cape Breton was allowed to continue her trip to St. Lawrence.

Chief of the Cape Breton, said that he was on the right course when his vessel struck the Canada. He says that the collision could have been easily avoided by the Canada. Capt. St. Louis of the latter boat took notice of a signal of alarm which he had given. The Canada was struck on the starboard, and in ten minutes her hull had sunk to the bottom, leaving part of her deck and cabin afloat. There were some sixty passengers on board outside the crew.

The salvage boats of the Cape Breton succeeded in taking on board most of them, and the victims of the wreck.

Wreck was taken later on to St. Lawrence by the steamer Prevalent.

Montreal, June 13.—There were about 170 persons on board the Canada, including passengers and crew. Mr. J. H. J. Poirer, Mr. Poirer, son, director of the company, being the only one of the crew. The Canada was built in 1900, and is valued at \$100,000. The Cape Breton sustained little or no damage.

Drowned at Toronto. Toronto, June 13.—It was a sad ending to a Sunday afternoon's outing which remained in the drowning of the Canada. Mr. Poirer, son, and Miss Gladys McKibbin, 88 Willoughby street, had been coming on the steamer and were on their way home about 7:30, when a passing launch, owned by Mr. Emory, overtook them. There was a picnic party from Grace Hospital on the launch. They offered to take the Canada along. The steamer was accepted, and all went well for a short time, until the canoe shipped a little water. This it is thought, made Miss McKibbin nervous.

She refused to move forward to unload the canoe. The launch was drawn under the water. In the confusion, Mr. Poirer, son, was killed in jumping her above water. Until the launch was drawn under the water, the launch was drawn under the water. The launch was drawn under the water.

OTTAWA, June 15.—In reply to Mr. Borden, who asked when the orders of the day were called if there was any government legislation that had not been placed before the House, Sir William Laurier replied that there would be some minor measures and an amendment to the election law. He explained to explain the nature of the amendment later on.

Mr. Borden resumed the debate on the budget, and he was followed by Mr. Laurier. Both leaders discussed the tariff question very fully from their respective viewpoints.

The debate was continued by Messrs. Houlton of Hughes, Kings, F. J., and Irish, Jones.

Mr. W. P. N. was indicated that the arrangements made by the Railway Committee to consider his bill establishing a two-cent passenger rate on the St. Lawrence, would not prevent him moving the name in the House in amendment to Mr. Fitzpatrick's bill.

Very soon after parts of the second and third decks also came in. But before this happened the tug "Hatter" had come alongside the burning steamer and had been loaded to it. Many of the passengers were taken on shore and still alive. None of them could be rescued.

Rescued bodies of the burned and the drowned drifted ashore on the east and between 12th, 13th and 14th streets, in Manhattan. Some came ashore still alive. Many of them died, while others will recover.

Stratford, June 16.—The day in this section is in excellent condition, but the rains which have brought about the luxuriance have also caused losses. Many homes have been damaged through eating the wet grass.

New York, June 16.—One of the most appalling disasters in the history of New York, tragically in its immensity, dramatic in its episodes, and deeply pathetic in the tender age of most of its victims, occurred yesterday in the East River, at the entrance to Long Island Sound, within a short distance of the New York shore and within sight of thousands of persons, the majority of whom were parents to give aid.

By the burning to the water's edge of the funeral steamer, a three-decked excursion steamer, the largest in the world, more than 500 persons, the majority of whom were women and children, were hurled to death or drowned by jumping overboard or by being thrown into the whirlpool of Hell Gate by the lurching of the vessel. Approximately 500 bodies have been recovered, and now are being taken to the morgue of Bellevue Hospital.

The steamer was blowing for assistance, and was and other nearby craft, however, the fire was so great that the steamer was unable to make headway. The fire was so great that the steamer was unable to make headway. The fire was so great that the steamer was unable to make headway.

Meanwhile the steamer burned for two hours and twenty-five minutes before it was abandoned. The ship sank. It is estimated that there were nearly 1000 bodies in the water. Just after the steamer sank the water was black with bodies.

Polish For the Politician.

An excellent cleaver and polisher for furniture with a very high finish is recommended by an experienced dealer in raw woods. To one tablespoonful of linseed oil add an equal proportion of turpentine, together with a piece of dry soap the size of a walnut. Pour this into a vessel containing one quart of boiling water and let the whole boil for about ten minutes, stirring it occasionally so that it may be well mixed. This liquid can be used either warm or cold, but it is more effective when warm. It can be heated several times before it will need renewing. Apply with a soft flannel cloth well wrung out to a small portion of the surface to be polished. After the dirt has been well wiped off take a fresh drench in polish with a few minutes' vigorous rubbing will soon restore the wood to its original brilliancy.

A heavy lunch or supper meal.
With tongue and cold meat a heavy lunch or supper meal can be prepared, and a table set. Cut up and serve the former, assembling them with salt, pepper, chopped onion, a few drops and a bit of bay leaf. When soft press through a sieve and to each pint add two tablespoonfuls of tarragon.

For the Head of the Eye.
When reading, writing, drawing, sewing or engaged in similar work are taken care that the room is comfortably cool, that the feet are warm, that there is nothing tight about the neck and that there is plenty of light. Be sure that the eye does not shine directly on the object you are at work on or an object in front of you and that the light comes from over the left shoulder. The head should not be bent much in reading. The page should be nearly perpendicular to the line of sight. It should not be less than ten inches from the eyes.
If grains occur in the corner of a cupful of cold water.
When the latter is dissolved and the mixture is chilled and becomes thicker, mix with the dried cold meat, turn into wetted mounds and set away until firm, serving on a bed of lettuce or water cress, with mayonnaise and a garnish of hard boiled eggs.

Proceedings in the House.

Ottawa, June 16.—When the orders of the day were called in the House yesterday, Sir Wilfrid Laurier stated that an Order-in-Council had been passed relieving Lord Dunsandel of the duties as general officer commanding the Canadian militia. Labour Committee Got Well.
Replying to Mr. Smith of Vancouver, Sir William Mulock stated in 1886 to acquire into the matter of capital and labor in Canada was \$31,718. Fourteen commissioners were appointed. The Rochester Herald has been lately discussing the annexation of the United States to Canada, in a manner which may affect Canadian sentiment. If it does not do this, it does the worse, and our readers are told that it is not to be trusted.

At present such a suggestion seems very much less likely than it did at the outbreak of the war, but the talk among leading French-Canadian leaders that it is not to be trusted, is a warning that it is not to be trusted. It is a warning that it is not to be trusted. It is a warning that it is not to be trusted.

The United States, in its attitude towards Canada, is not to be trusted. It is a warning that it is not to be trusted. It is a warning that it is not to be trusted.

They were trying to pass parts of the city, and the citizens at large, particularly the ladies, were taking a live interest in what was going on.

The Fifteenth, in excellent good strength, formed up on the Market Square shortly after 4 o'clock, each company on its own ground.

The Veterans, who may be sure were trying to pass parts of the city, and the citizens at large, particularly the ladies, were taking a live interest in what was going on.

FIGHT AT VAFANGOW WILL RETARD SIEGE OF PORT ARTHUR.

Russians Admit 1,020 Lost, But Consider Vafangow No Defeat.

Battle Caused a Diversion and Will Materially Affect the Japanese Operations in the Southern Part of Liaoting Peninsula—Forces Must Recapture Several Days and Port Arthur's Fall Is So Much Further Removed.

British Will Not Forget.
London, June 18.—(C.A.P.)—The London correspondent of The British Press writes in a letter to Lloyd George, M.P., says the British Government does not intend to protest against the Canadian Government's maintaining the preference to British goods and services. On the grounds that the proposal only forms part of a scheme of tariff revision, framed in a spirit of consideration for British industries, and because of the absence of reciprocity, the matter rests entirely in the discretion of the Canadian Government.

"VICTORY FOR THE 'JAPANESE' WRITING INK."
IT WINS BY MERIT.
Non-combatant. From Fifty Year Stationer Sells.

St. Petersburg, June 18.—Military circles here do not view the battle of Vafangow as a defeat, and they continue to estimate the Japanese losses at 1,020 men and 20 officers.

Whether Gen. Nishikori's expedition to the situation at Port Arthur is considered here as an unexpected diversion which will materially affect the Japanese operations in the southern part of the Liaoting Peninsula, it is not north of Korea, but a large force division, and the military seems to think that they will be successful in the immediate operations against Port Arthur.

It is pointed out that the force engaged at Vafangow must have been the Japanese force north before allowing them to engage him, but experts here expect that local conditions necessitated the fight at Vafangow.

Gen. Nishikori is praised for the skillful handling of his men in the field. He and his old war comrade, Gen. Kurapakin, fought side by side in Turkestan, and he is believed to again taking the field, although at least as invalid.

1,000 Men and 20 Officers Lost.
St. Petersburg, June 18.—A special despatch to the Associated Press from Liao-ching contains the first Russian estimate of Gen. Nishikori's losses, placing them at a thousand men and 20 officers.

In Favor of Russian Success.
London, June 18.—According to advices received at the Japanese Legation from Tokyo, Vice-Admiral Kamimura's fleet captured on the morning of June 15 in pursuit of the Russian Vladivostok squadron.

Russian Shot Out.
London, June 18.—The Japanese Legation received a despatch from Tokyo announcing that the Russian Vladivostok squadron was sighted off Old Island Thursday.

but was outmanned in number by the Japanese, whose Russian battery pitted against the Japanese battery was literally smothered by Japanese shells.

A new Russian battery land they shells in the midst of an ammunition train, which was galloping up to serve the Japanese guns. Two calibers exploded, killing all the horses and drivers.

The Japanese guns fired at least 1,500 rounds. The Russian fired several times on Japanese infantry in close formation, causing tremendous havoc.

An officer of the fourth battery says his battery had a duel at two and a half miles with the Japanese battery and silenced it. His battery then ran out of ammunition, and the men carried the breech mechanism of the guns with them to the river and brought up a fresh supply of ammunition and resumed firing the guns.

Several of the Russian dead found in the boats were horribly mutilated. The Japanese officers drew up formal memoranda on this.

Forty Prisoners Taken.
Nagasaki, June 18.—The transport Katsura, on entering Mito Thursday night, found the Yamanaka. The former sank. The transport Noda, damaged by Russian shells is ashore at Chino Island. The transport Hino has proceeded from Mito to assist the Noda.

Impressed at Sea.
London, June 18.—The Daily Telegraph writes from Tokyo: "The advanced guards of Gen. Nishikori's fleet, the Russian fleet, are now in the sea south of the Japanese coast." "The Japanese fleet, the Russian fleet, are now in the sea south of the Japanese coast."

ELECTION LAW CHANGE

Proposed Legislation Absolutely Without Excuse.

Government's Proposals to "Reform" the Laws for Elections in the Face of an Election—Premier Very Indignant.

Ottawa, June 18.—Vague but potent was the announcement made by Sir Wilfrid Laurier in his House yesterday concerning the new Government legislation that is to be brought down early next week. Sir Wilfrid admitted that there would be an amendment to the election law. Though pressed hard by H. E. Jordan and Dr. Hoche, the Premier declined to furnish any particulars. He merely stated that the amendment had reference to the late in certain provinces and left the imagination of the House to do the rest.

The Opposition has a pretty clear idea of the object of the proposed legislation. It aims at the revision of the law in Manitoba. The proposed legislation is capable of no degree.

When John Haggart pressed the Premier for details of the amendment, Sir Wilfrid went so far as to explain that he thought the bill would make provision for the province, and for the case when the law is not prepared either by the judicial authority or by the ministerial authority. "Will the bill have the effect of laying aside the provincial laws that are now being prepared by the officials of the Manitoba Government should an election take place within the next few months?" asked Dr. Hoche, "and are the new laws to be prepared in time to meet the election of the Government?" "The Minister Government officials?" "Will the bill have the effect of laying aside the provincial laws that are now being prepared by the officials of the Manitoba Government should an election take place within the next few months?" asked Dr. Hoche, "and are the new laws to be prepared in time to meet the election of the Government?"

The Postmaster-General, he said, would introduce legislation in the House to the Civil Service Act. The Minister of Railways would bring down legislation for the transfer to the International Railway of the Canadian Eastern Railway. He would also propose a bill to which the Premier said he could not speak with any certainty, providing for a system of pensions upon the railway. The same bill is in force upon the C.P.R. and the G.T.R. There is a departmental character, but not a legislative character, he said. He mentioned the legislation regarding the Privy Council in the case of the Young street bridge.

or, perhaps protected against the taking of Monday for Government business. What would become of private members' business, he asked. He referred to some important motions that still remained on the order paper and which should not be so lightly disposed of.

To this appeal the Prime Minister gave partial heed, by promising to give next Monday to the use of private members.

In reply to Mr. Haggart Sir Wilfrid promised to have the motions and record in the approval of the province to the Imperial Privy Council against the redistribution act, brought down without delay.

THE MURDERER CAUGHT

Irving's Slayer Found Up in the Neck in Spanish River.

When the Pursuing Crew Came Up With Him He Offered No Resistance, and Was as Quiet as a Lamb as he Lay on the Ground.

Small Star, Mar. 20.—John J. P. Chartrand, who shot and killed Fredrick, Constable Irving, was captured on Friday, was captured at noon yesterday. It was seen making an attempt to cross Spanish River, 13 miles south of Wellwood, by which he could have gotten into open country, and one of the numerous pines which had been growing in the country, continually firing the shooting surrounded him. Chartrand made a dash to get away and followed him up by a novel attempt to hide by going into water up to his neck. It took the men of the posse some time to discover him in this position, but when they did he was without resistance.

He was in a very weak condition, and he had been tramping the woods without sleep from Friday morning. He had been taken a raw rabbit, which he had shot. One leg was quite badly lacerated. The prisoner was, however, taken to the look-up at Wellwood, and he was given a preliminary hearing before Magistrate Borden today.

The funeral of the late Constable Irving was held from his late home in Wellwood Saturday. It was the largest ever held in the district, nearly 5,000 people being in attendance.

How easy it is for one to suggest a new way for some one else to manage a business affair.

HERO OF WHYSMITH SAYS HIS HANDS WERE CRIPPLED

Lord Dundonald Explains the Reasons for His Speech.

Canada As Present Militant Cannot Successfully Resist Aggression—By Our Unpreparedness For War We Live in a Fool's Paradise—Sydney Fisher Incident Sinks Into Comparative Insignificance, and the Late G.O.C. Reveals the Hand of Sir Frederick Borden.

Canada As Present Militant Cannot Successfully Resist Aggression—By Our Unpreparedness For War We Live in a Fool's Paradise—Sydney Fisher Incident Sinks Into Comparative Insignificance, and the Late G.O.C. Reveals the Hand of Sir Frederick Borden.

THURSDAY, June 20.—Lord Dundonald gave out on Saturday his statement regarding his recent actions. The statement is as follows:

Considering it desirable that I should lay before the people of Canada a statement of my position with reference to the difficulty between myself and the Government of Canada, I may say:

I was fully aware of the gravity of the step which I took in making a public protest. I was fully aware that it was an unusual step. I decided to take it because I was convinced that it was the only means of serving the militia of Canada.

I have for two years been general officer commanding the militia. I have worked hard to improve the force, to devise a scheme of reorganization, to create and organize numerous departments, and to improve the system of training. I have ardently desired to see the militia of Canada in Canadian politics.

Never before.

In all of my work I have endeavored to keep strictly in view the nature of my post. I have not sought to impose my policy upon the Minister or upon the Government. I have sought to carry out the plain obligation of the Government. I have sought to carry out the plain obligation of the Government. I have sought to carry out the plain obligation of the Government.

view, all of persons interested. I do not desire to see the militia of Canada in Canadian politics.

THE KING'S BOOTS.

The King wears an 81 boot and his foot is well proportioned. He says Mr. Leo Thomas of the James street, the royal bootmaker, is an interesting informant on the King's boots, which appear in the current number of Footwear.

His Majesty has practically a pair of boots for every footfall he wears. Besides walking boots, riding shoes, evening shoes, and shooting shoes.

It is a popular notion that the King orders his boots in large quantities. This is not so. His orders, as a rule, only one pair at a time, although occasionally several pairs which are required for specific purposes, and which differ from each other, are included in one order.

"The King," said Mr. Thomas, "knows precisely what he wants and fancies, and when having it, is one of the greatest athletes of the day. He knows, and I hardly need to say, that with a great number of people, as you can well imagine, there is an ornament, a button, or a particular style but that he remembers, even after the lapse of a long period since the goods were originally made for him."

As for material, the King wears either best calf or calf skin, the latter of which he considers too delicate for his use. "For a smart, neat, walking boot, he prefers," Mr. Thomas says, "the vamps cut from patent kid or fine black leather. But, whatever the material, it is the very best procurable. The King's boots and shoes are all made on specially modified lasts, and the work, it goes without saying, is hand made. The price the King pays was not stated, but one remark made by Mr. Thomas is significant: "I pay as much as 14s and 15s per pair to a workman who simply attaches the soles to the uppers, which is as much as most people of the average pay for an entire pair of boots."

Among His Majesty's favorites are Russian calf derbies for shooting, calf patent evening dress shoes for evening, and Oxford type, a brogue shoe, for walking.

Mr. Thomas also makes all the shoes of the King. The style and character of which are very high pair of military-looking boots with gilt spurs attached.

"That pair of boots," said Mr. Thomas to the interviewer, "was made for the late Duke of Clarence to be married in the high Hogarth died just about the time the boots were completed. They were not, of course, delivered, but I subsequently obtained the consent of his royal parent to retain them as a memento of the sad occasion."

They Themselves Admit a Loss of 3,000 Killed or Wounded.

Japanese Report Says 20,000 and the Balance in Prisoners—Up to June 17 Gen. Oka Buried 1,576 Russian Dead Left on the Bloody Field of Telisso—Russian Officer Says 7,000 and Praised Effectiveness of Japanese Artillery Fire.

Tokyo, June 21.—Further reports received here show that the blow inflicted by the Japanese on the Russians in the fighting at Telisso (Yafangfou) was at first believed. The number of Russians killed in this battle was probably about 2,000, and the total loss, including prisoners, is estimated at 10,000. Japanese losses are less than 1,000, or about one-tenth of the Russian total.

Up to June 17, Gen. Oka had buried 1,576 Russian dead, and he reports that many more dead have been found. The Russian dead were found in the Russian camp, and the fighting from the Russian side may have been the cause of the heavy losses. The Russian camp was destroyed by the Japanese, and the Russian soldiers were killed or wounded. The Russian camp was destroyed by the Japanese, and the Russian soldiers were killed or wounded.

St. Petersburg, June 21.—General Kurupkin has telegraphed to the Japanese General Staff that the Russian General Staff reports that the enemy has not advanced beyond the Russian front line.

progressment map of the whole battle field and that their batteries were concentrated in the center.

Another Russian Estimate.

London, June 21.—The correspondent of the "Standard News" agency at Mukden says it has been officially announced that the Russian losses at the battle of Yafangfou were about 17,000 officers and 900 men killed, 37,000 officers and 700 men wounded, and 13,000 officers and 700 men missing.

Great Artillery Fire.

Newspaper, June 21.—A Russian officer who was wounded in the battle of Yafangfou (Telisso), told an Associated Press correspondent that the losses on both sides were severe. He placed the Russian casualties at about 7,000. He says no soldiers in the world could withstand the Japanese as they have been fighting lately. Their artillery fire, he claims, is marvellously effective. The Russian dead and wounded, he says, are unable to withstand the enemy's leading persistence.

General Engagement.

London, June 21.—A general engagement is proceeding near Kailash. The first train has been sent, and the Japanese are moving forward.

Japanese Fleet Again.

Nagasaki, June 21.—A report has been received from the Japanese fleet that the Japanese fleet is moving forward.

WONT ANNY CATS.

Member of Association of Canadianists Is Opposed to It.

London, June 21.—At a special meeting of the Nationalist Chamber of Agriculture at Stafford the chairman said he had observed the meeting in consequence of a communication received from the Birmingham Chamber of Commerce, in which it was stated to express his opinion with regard to the proposal to allow Canadian cattle to be admitted free into England and Scotland.

The question of the Chamber had not, said Mr. Patterson, on behalf of the chamber, moved. That the Chamber should be the promoter of an alteration in the Tariffed Animals Act of 1878 as to the admission of Canadian cattle to the United Kingdom as a whole, being of the opinion that the proposal was not in the interests of the Canadian cattle to be admitted free into England and Scotland.

The motion was unanimously carried and the Secretary directed to send a copy to the Birmingham Chamber of Commerce, the Canadian Cattle Association, the president of the Agricultural Association, and the Central Chamber of Agriculture.

London, June 22.—(C. A. P.)—At the Crystal Palace the Canadian bowlers defeated a strong side of the London County Club, led by Dr. W. G. Grace. The Dominion bowlers displayed the best form they have yet shown, while on their way to win in brilliant style by 80 to 75. On their way the Canadian play an international game against Wales at Cardiff.

No Proof.
London, June 22.—(C. A. P.)—A telegram to The Mail from Berlin says that the allegations against Kiehl are devoid of proof, and are insufficient as in the case of Col. Harden. No time ought to be lost in getting him out of Germany.

Retirement of Canada's Auditor-General Announced.

Mr. McDougall, Who Was Appointed to the Non-Political Position in 1878, Has Had Frequent Collisions With the Government During the Past Year, and is Unwilling to Face Risks Involved in G. D. R. Deal.

Ottawa, June 22.—The coming retirement announced yesterday of J. Louis McDougall, from the office of Auditor-General, has been cited for a long time by the Auditor-General and Mr. McDougall, who has been in the office since 1878, has had frequent collisions with the Government during the past year, and is unwilling to face risks involved in G. own a house, it is to be said that the Government decided to grant him a pension, and Mr. McDougall, who has been in the office since 1878, has had frequent collisions with the Government during the past year, and is unwilling to face risks involved in G. D. R. Deal.

The chief cause of Mr. McDougall's resignation was an unwillingness to face the Grand Trunk Pacific bill, which was a source of much trouble to the Government. Mr. McDougall, who has been in the office since 1878, has had frequent collisions with the Government during the past year, and is unwilling to face risks involved in G. D. R. Deal.

In April the law relating to the office of Auditor-General was amended with the object of making the office independent of political considerations. Mr. McDougall, who has been in the office since 1878, has had frequent collisions with the Government during the past year, and is unwilling to face risks involved in G. D. R. Deal.

Tokio, June 25.—Admiral Togo reports an engagement at Port Arthur last Thursday, in which a battleship of the Japanese type, was sunk and a battleship of the Neva-type and a first-class cruiser of the Japanese type were damaged. The Japanese fleet were practically unengaged.

Mr Wilfrid Laurier Plays the Ostrich-Act
With the Question, But Was Not Con-

in Canada Was to Rehearse Arguments.

Ottawa, June 25.—In the House yesterday R. L. Borden asked whether the Minister of Marine and Fisheries had any information in regard to the recent negotiations between Canada and Russia.

Mr. Prefontaine replied that recent negotiations between representatives of Canada and Russia, in London, reached the point that a certain

posed agreement would be reported to their Governments to represent the evidence for ratification or otherwise. The Russian Government is on the understanding that the conclusion of the Russian Government in this matter has been made known and communicated to Canada through the ordinary diplomatic channels for consultation. This communication to the Government has not yet been received by the Canadian Government.

Sir Wilfrid Laurier laid on the table the original of the Order-in-Council striking the name of Dr. Pickell from the list of members of the Senate.

He said it was most unusual to produce the originals of documents of this kind, but in view of the importance of the matter, the Government had decided to do so.

Lord Dundonald's Dismissal.
The dismissal of Lord Dundonald and the attendant circumstances were debated with unflagging energy in the House yesterday. Sir Wilfrid Laurier took part in the discussion. He went further than either Sir Frederick Borden or Hon. Sydney Fisher in justifying the action of the

Government. His strictures on the official career of Lord Dunsandall in Canada were very severe. He argued at length and with the aid of ponderous authorities that Lord Dunsandall had violated the principles of constitutional Government, and that the Government had no choice but to dismiss him. Sir Wilfrid was fairly successful in bringing the real question at issue, the right of the Minister of Agriculture to make peace in the militia the

The Traveler

How often is the traveler not a good one. As a matter of fact, in some parts of the country, the traveler is not a good one. Enough "Alder's Salt" is not enough for him.

Travelling isn't always pleasant. Irregular eating—changes in cuisine—different water—no wonder the stomach rebels! Those who want to enjoy their trips on land and sea, should take a good supply of ABBEY'S SALT with them. It strengthens the whole digestive tract—neutralizes the evil effects of hasty eating—regulates the bowels—keeps one well and strong.

CURIOUSITY'S UPSET.

Wonders in a Whirl. Almost black through the black water and in the shadow of night, one vessel cut across up and down and almost destruction to the other.

How many people know what curious forces are made to produce such a calamity in the heart of those who direct the deadly transport.

From the ship, the crew is ordered to get out of the ship as fast as they can. The crew is ordered to get out of the ship as fast as they can. The crew is ordered to get out of the ship as fast as they can.

AN ANALYSIS OF LIFE

"REHOLD THEY SERVE WHO ONLY STAND AND WAIT."
SERMON TO THE DISCOURAGED

Not by the sword, says the Gospel, but by the Spirit is the Kingdom of Heaven won. And it is the Spirit that is the power of God.

Los Angeles, Cal., June 26.—The discouraged, to those who have made what the world calls a failure of life as well as to the impatient who find dissatisfied, this sermon conveys a practical lesson. The text is Hebrews iv. 15. "Stand still and see the salvation of the Lord."

To fall back, in order to go forward; to retreat, in order to advance; to retreat, in order to conquer; that, at least once in life, before you were their spiritual triumph.

Sunday June

There has been no retreat from the position of the leaders of the church, and no expectation of better after the present. The church has been a part of the world, and the world has been a part of the church.

THE HOME DOCTOR.

Curative relieves cuts and wounds of all kinds.

A suppur of boiled onions will do more than any medicine.

Boast the white of an egg with a piece of alum until it looks extremely and is stiff. Spread it on flat and lay on a vessel, changing as it becomes dry.

To not use flour and molasses on a burn. The removal of flour or paste from an inflamed eye. If the result is always doubtful, as it generally takes the skin off with it. Any good salve is better.

A good recipe for a lotion for weal, itch or inflamed eyes. Fifteen drops of spirit of camphor, one tablespoonful of powdered boracic acid, two-thirds of a cup of boiling water. Strain through muslin, cool and apply twice a day.

The Stocking Problem.

Keeping down the stocking market is the problem which confronts the woman who has to do the darning for a family. If there are small boys with a fondness for playing marbles and climbing fences who will find her labor much lessened if she dyes up darning altogether and takes to mending instead. The tops of half worn stockings similar to those in use now would be put away for this purpose. From these pieces mending in grain may be placed under the foot of the shoe, the edges trimmed away and the patch neatly made by what is known as "cashmere" darning. When properly done it is almost impossible to detect the repaired place.

How Eggs For Children.

The more thoroughly an egg has been cooked the more severe is the labor denominated of the stomach. If its utmost value it should be eaten either raw or underdone. Hard boiled eggs are suggestive of cholera and dysentery. Raw egg is a splendid stimulant. It is by no means incompatible with other foods, but, like the dash of vinegar. For weakly children raw eggs beaten with milk make a first class food. The mixture may be sweetened with sugar. It is best to give it in small quantities at short intervals.

Appearance at Home.

Don't say that it doesn't matter how you look around the house, for it does matter a great deal. It matters for the general credit of the establishment; it matters in its example to the children; it matters to the husband and father. It is one of the important duties of every woman to keep herself and her house in good condition, and, if possible, considering her circumstances.

AN ARTISTIC MANTEL.

Good Mantel Dressing Room and Hallway Bed.

Here is an ornamental mantel made from an old hallway bed. As will be seen from the illustration, the parts form a support for the lower shelf. The latter (unless part of the bed can be used, which is quite probable) must be of wood stained and polished to match the old wood. It need not correspond with it in quality, as very little of the bed is to be used, and the footboard of the bed is used, and

MANTEL MADE FROM A BED.

very effective it is in the carving on it is handsome. It may of course be shortened to fit the mantelpiece and finished at each end with a most wood on leading to match. Above the footboard is another shelf, narrower than the mantelpiece. The shelf above, when covered by large effective pots in earthenware or metal, china bowls, etc., and the lower one by smaller household pots, a clock and other odd few other miscellaneous things. It is a most

To Roast Coffee at Home.

It is some trouble to roast coffee in a home, but the result more than pays for the trouble. Here the green beans are any quantity, just so it is not too large, and roast it a pound at a time. One expert beats the beans in a wooden bowl with a tablespoonful of butter, and stirs over the fire until the coffee is quite brown. It is then put in a shallow baking pan to a hot oven for five or ten minutes, stirring well from time to time to prevent burning and also to allow the beans to brown evenly on all sides. The odor of the roasting coffee is delicious, and, by the way, acts as a clearing agent, rendering the atmosphere clean and fresh after the fragrance has disappeared. Never grind more coffee than is needed for a single serving, as the bean loses strength after grinding.

Lemon Pudding.

Lemon pudding is an economical dessert and a very good one without. Have a pint of breadcrumbs, a quart of milk, a cup of sugar, the yolk of four eggs, a tablespoonful of butter and the grated rind of a lemon. Mix these and bake in a porcelain shallow dish. Whip the whites of the eggs stiff, with four tablespoonful of powdered sugar and a tablespoonful of lemon juice. Spread the over the pudding for a meringue, browning in the oven.

FLATIRONS.

If Cared For Properly, They Will

insure a Pleasant Visit.

Flatirons in the average household are often sadly neglected. They are very apt to be left on the back of the stove, where they can over-heat, burn the clothes, and where in time they lose their power to retain heat. Like all iron and steel instruments, they should be kept in a dry place, where they are not subject to rust or moisture.

Flatirons that have lost their tem-

per and become rusted or rusted should be disposed of and not left to take up valuable space on kitchen shelves. From rust and dirt, and it is your economy to use one that is as good as new.
